

## Preview of an encyclical

Dennis Coday | Jul. 6, 2009 NCR Today

With the release of the new social encyclical *Caritas in Veritate* (the English title is "Love in Truth") just hours away, I thought readers might want a quick reference guide to previews of the document.

- In preview of new encyclical, Benedict reprises 'dictatorship of relativism' speech [1]
- Economic encyclical expands on church's 'best-kept secret' [2]
- A key to reading Benedict's social encyclical [3]

Typing "Caritas in Veritate" into our <u>search engine</u> [4], will get a few more hits, but the three above are what most people seem to want.
